1. **Part Number Confirmation:**

- a. **1st Stage Buckets:** The part numbers provided in the RFP document correspond to the casting numbers of the bucket itself (used for manufacturing), not the actual part number. Please provide the correct part number.

Ans: Please see below image with identification numbers on 1st stage bucket to be repaired.

A part number used recently (2016) to identify similar part is: 314B7158G015

- b. **2nd Stage Buckets:** The part number provided in the RFP document is not a valid part number. Please confirm the correct part number.

Ans: Please see image below of Bucket to be repaired.

A part number used recently (2016) to identify similar part is: 314B7159G013

- c. **2nd Stage Nozzle:** The part number provided corresponds to a number that would not apply to your unit (based on the other components, GT3 seems to have been upgraded to N/T – New Technology). Please reconfirm the correct part number for this component (advise if it is part number 112E6621G001).

ANS: Please see image below with numbers on Nozzle to be repaired

Another drawing number associated to the second stage nozzles are: 112E6621G001 (2006)

- d. **1st and 2nd Stage Shroud Blocks:** The part numbers provided are not GE part numbers. Please provide the correct part numbers in order to quote the repairs accordingly.

Ans: OEM part Number is as follows; Stage 1 - 339A9970G004, Stage 2 - 339A9971G002

2. **Bid Extension:** Based on the information above, we would like to request a 1-week extension to the bid due date (currently on April 13). This means that the new bid due date would be **April 20**. Please advise if this can be accommodated.

Ans: Yes this extension is allowed.
