ADDENDUM 2

JPS REOI # 968225- EPC Contractor for a 115 MW Utility Scale Solar PV Plant, 171.5 MW Battery Energy Storage System, and 12 MW Onshore Wind Plant

The purpose of this addendum is to provide feedback to question(s) received in relation to this REOI. Note same as well as JPS' feedback (in blue) below:

1. Kindly provide a list of firms who have expressed interest in this opportunity?

Answer: While we will opt not to share the listing of specific vendors, we anticipate participation from various suppliers globally.

We would also like to advise that we are aware that some of the links contained within the REOI document concerning the JPS Sharefile platform are non-functional. If you require any assistance in this regard, please reach out via email to the Points of Contact identified within said document.
