ADDENDUM 1- JPS RFB #1075904- Sale of Compressor Stator Blades

The purpose of this Addendum is to provide responses to questions and requests received in relation to this RFB. Please see the questions submitted and JPS' responses below.

3.0 PRICES

Question:

The RFP states that the successful bidder will be responsible for all customs clearance, duties, taxes, and related charges. Could you please advise what taxes, duties, customs fees, or other applicable charges may be payable in Jamaica in connection with the purchase and export of the equipment?

JPS Response:

No Jamaican customs duties or taxes are anticipated to be payable by the successful bidder in connection with the purchase and export of the equipment. The successful bidder will, however, be responsible for all freight and insurance costs, as well as any customs duties, taxes, clearance fees, or other applicable charges imposed upon arrival in the destination country.

4.0 CONDITIONS OF SALE

Question 1:

Could you please provide the part number for the Compressor Stator Blade Kit being offered for sale? The RFP refers to a complete Compressor Stator Blade Kit but does not identify the specific part number.

JPS Response:

*The Compressor Stator Blade Kit being offered is a **direct replacement for Part Number 178C6596G011**. The complete kit is to be supplied in accordance with the requirements and parts list detailed in the referenced specification.*

Question 2:

Could you please confirm whether the Compressor Stator Blade Kit is:

a. New and unused;

JPS Response:

The Compressor Stator Blade Kit is new and unused.

b. Supplied with any inspection, material certification, packing list, or other supporting documentation?

JPS Response:

A Certificate of Conformity issued by the original supplier. Note also the parts listing included in Appendix 1.
